

Chatterbox

The Gift of Life Edition

Welcome, Little Heroes!

Get ready for some foldin', flippin' fun with a Donate Buddies twist! This activity lets you play, giggle, and learn about organ and tissue donation in a magical, hands-on way.

What You'll Need:

- A printer
- Scissors (ask a grown-up to help!)
- Your super folding powers!

What's It About?

Each flap on the Chatterbox reveals a fun question or fact about organ and tissue donation, our amazing bodies, and how heroes (like YOU!) can help others. From learning about lungs that help us blow bubbles to finding out how one kind act can save many lives – it's all here, one fold at a time!

How to Play:

- Print and cut out your Chatterbox template.
- Fold it up with help from the guide.
- Gather your friends or family and start playing!
- Pick a colour, then a number, and flip-flap your way to a surprise question or fun fact.

Why It's Awesome:

You'll laugh, learn, and become a Donate Buddies superstar! It's not just a game – it's a mini adventure that helps you understand how your body works and how special it is to give the gift of life.

Let's fold some kindness into the world, one flap at a time. 

🎁 How to Fold Your Donate Buddies Chatterbox! 🎲

- Cut carefully around the outside square of your Chatterbox template. ✂
- With the printed side facing up, fold it in half, then fold it in half again.
- Flip it over so the blank side is facing up, then fold each corner into the middle.
- Now flip it over again and fold each corner into the middle one more time.
- With the numbers showing, fold it in half to make a rectangle.
- Slide your thumb and finger under two of the squares and gently press them together.
- Do the same on the other side with your other thumb and finger.
- Ta-da! All the flaps should now be at the front with the points touching.
- You're ready to flip, pick, and play your way to becoming a Donate Buddies superstar! 🌟
